Each

'ALWAYS ON' Safety

Key Features:

- Simple, safe solution for removing trailer from under the boat
- 'Always On' safety lock. No pins to place means you are ALWAYS protected
- Top Arm Pin is tethered with stainless cable so it will not fall or get lost
- Ergonomically designed handle for MUCH easier maneuverability
- Unit sits slightly on the tires at all times for ease of use
- Pneumatic tires roll easily over gravel, cement or your shop floor
- 19" vertical lift
- 40,000 lb capacity (4 jacks) to lift the largest boats easily
- Integrated lifting eyes/tie downs for convenient and safe transportation
- CAD designed and CNC machined for consistency and quality

CAD Simulation Testing
